Fix the table legs with bolts (E), flat washers (F), warp washers (G) and allen key (H).

Unlock the duckbill under the table top, then use your hands to pull the two table tops apart.

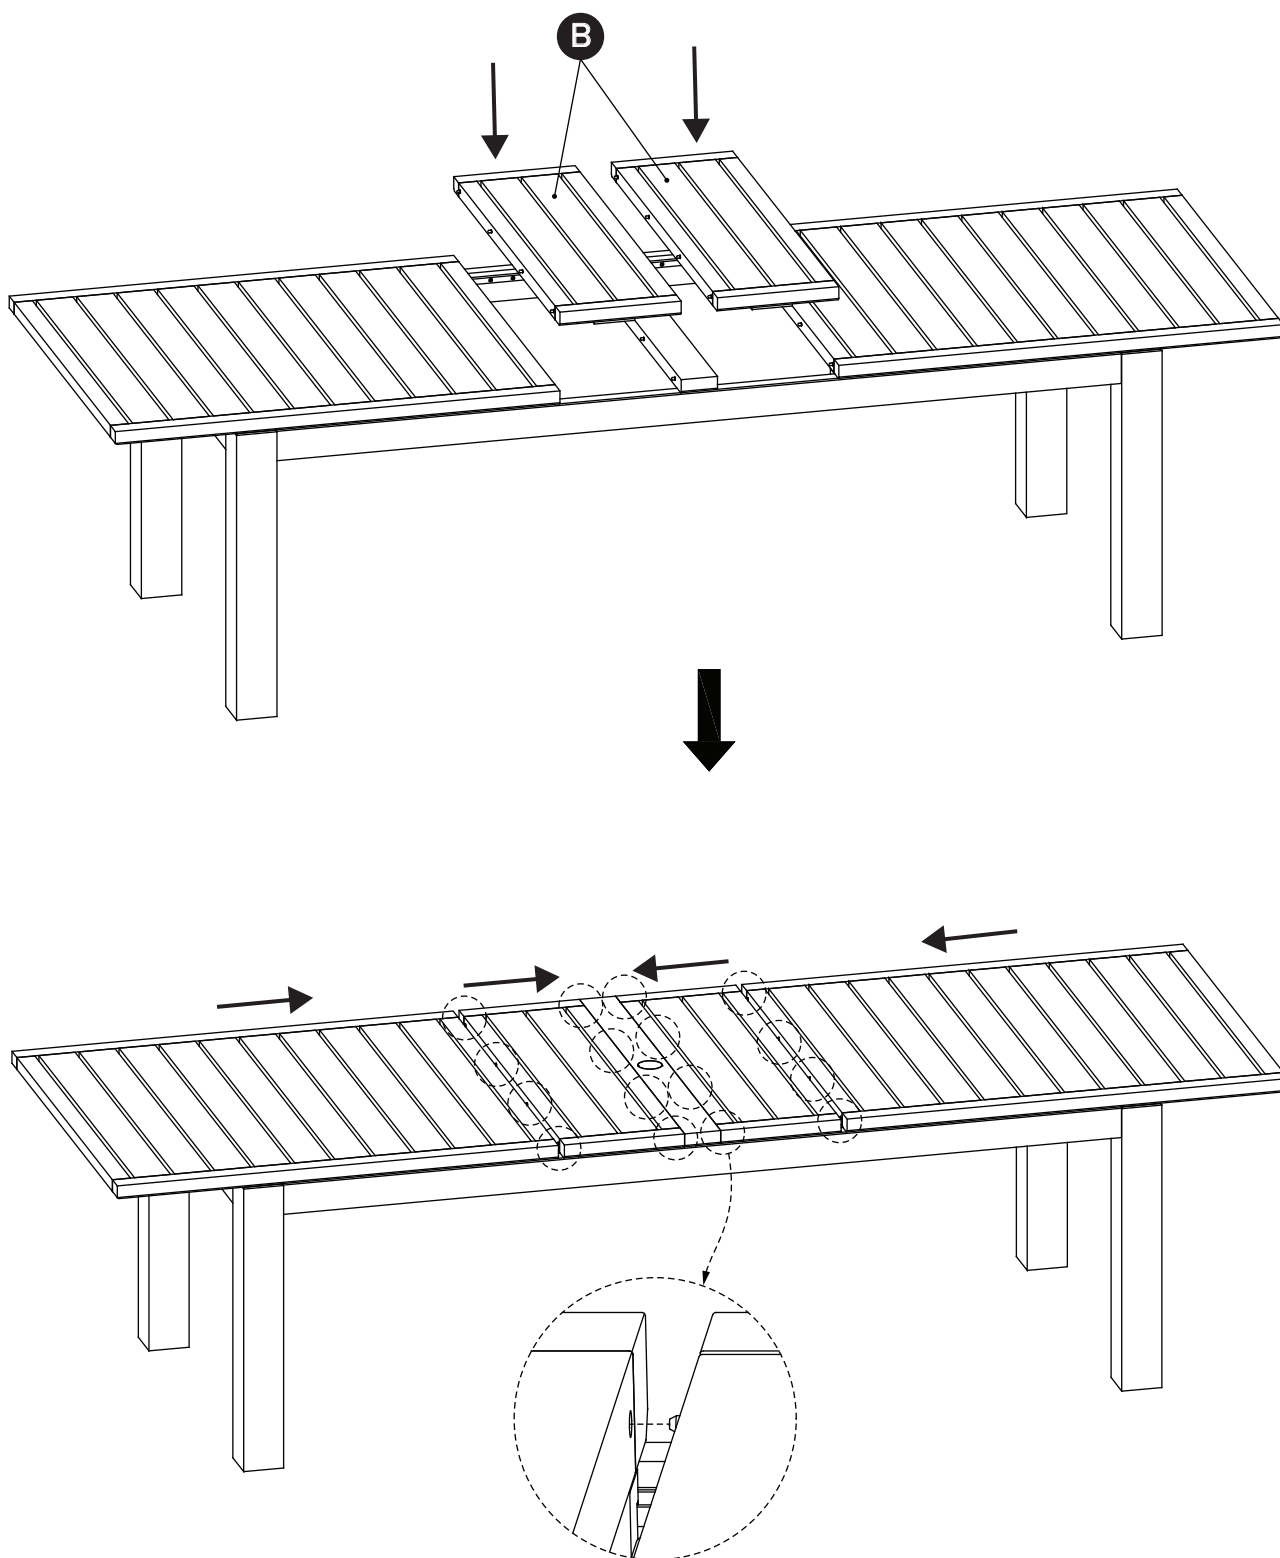

3

Place the middle table top in the position shown below.

Step 1: Push the middle table top into the center spoke position so that the male round pin on the center table top is concentric with the female round pin on the spoke with the hole.

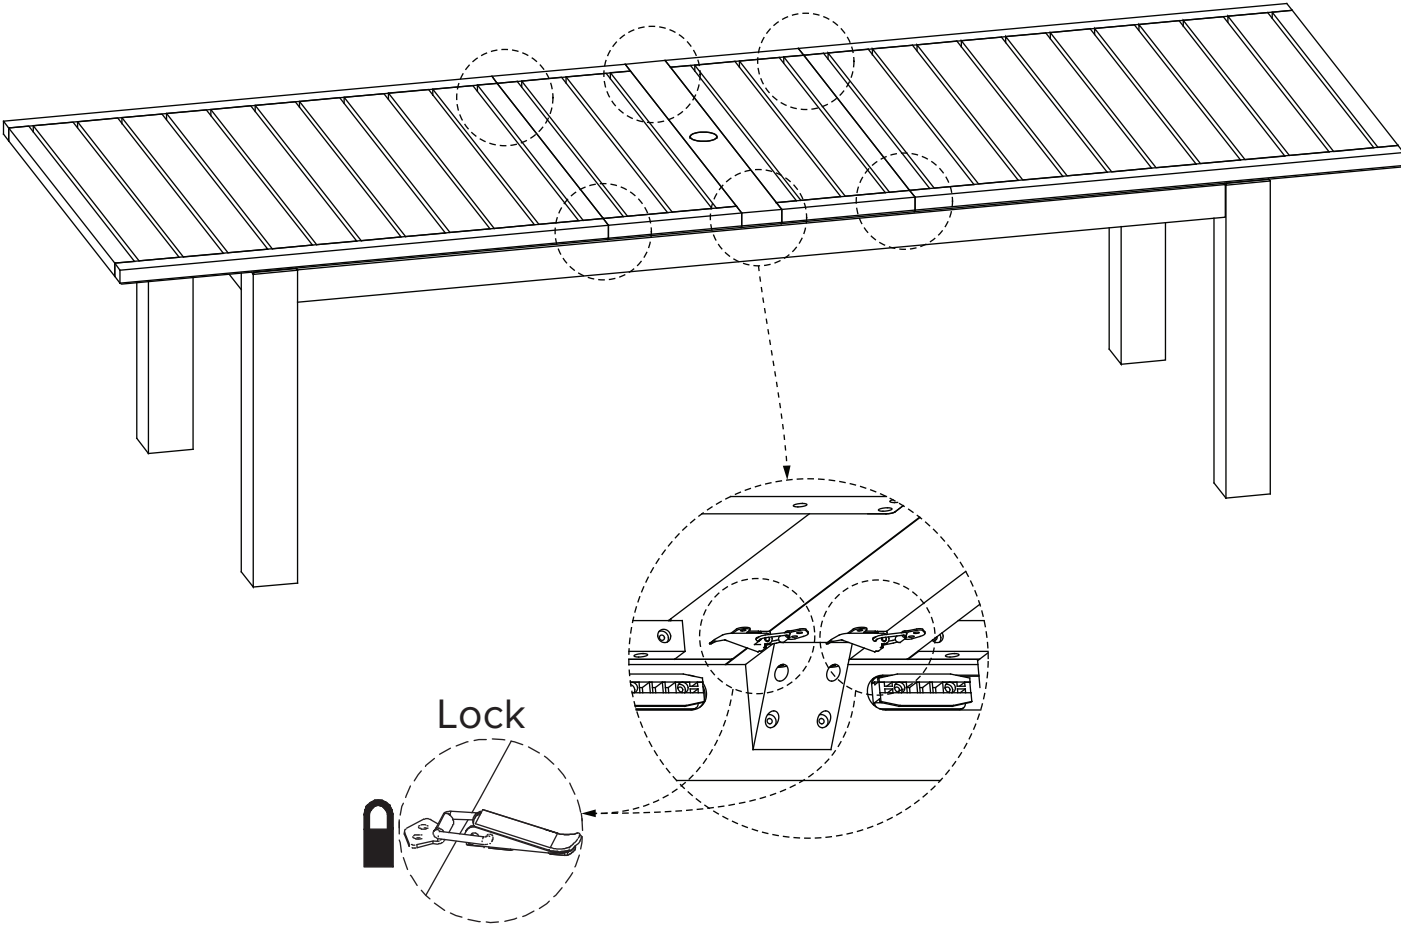

Step 2: Use force to push the middle table top inward first.

Step 3: Use force to push the outer table top assembly inward.

Close the duckbill lock to secure the table tops.
