- After using the bed, leave it open for a few hours to ensure the mattress has the opportunity to air out before packing away. People expel a surprising amount of moisture while sleeping, and it's important to give the mattress the chance to dry.
- If you are using the mattress/bed functionality regularly, flip the mattress over to allow the underside to air out too. Just be sure to flip it back so you only sleep on the memory foam.
- To clean your removable mattress cover, hand wash gently in cold water and hang to dry. Make sure it is completely dry before putting it back on your mattress.
- If you live in an older home, a humid climate, or keep the sofa bed in a room that is below ground-level, we recommend using a dehumidifier to protect your furniture from moisture.
